CERTIFIED FINANCIAL PLANNER™ (CFP®)

The CERTIFIED FINANCIAL PLANNER™ (CFP®) is a professional certification awarded by the Certified Financial Planner Board of Standards, Inc. (CFP Board).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized for its high standards for education, examination, experience, and ethics.

To attain the right to use the CFP® certification, an individual must satisfactorily fulfill the following requirements:

- **Education** – Earn a bachelor’s degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor’s degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor’s or higher degree or completed a financial planning development capstone course.
- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board’s *Code of Ethics and Standards of Conduct* (“Code and Standards”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who obtain the CFP® certification must also complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- **Ethics** – Annually reaffirm and commit to complying with CFP Board’s *Code and Standards*. This includes a commitment to CFP Board, to act as a fiduciary, and to act in the best interests of the client at all times when providing financial advice and financial planning.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of

knowledge and skills, and keep up with developments in financial planning. Two of the hours must be CFP Board-approved curriculum on ethics.

CFP® professionals who fail to comply with the above standards and requirements may be subject to the CFP Board’s disciplinary process, which could result in suspension or permanent revocation of the CFP® certification. For more information, refer to the CFP Board’s website at: <https://www.cfp.net/>.

Certified Public Accountant (CPA)

The Certified Public Accountant (CPA) is a professional designation for licensed accounting professionals. CPAs are licensed and regulated by their state Boards of Accountancy. While state laws and regulations vary, the education, experience, and testing requirements for licensure as a CPA generally include: a bachelor’s degree in business administration, finance, or accounting, in addition to having completed 150 hours of education; a minimum of two years of public accounting experience; and successful passage of the Uniform CPA Examination® (“CPA Exam”). The CPA Exam comprises four sections: auditing and attestation, business environment and concepts, financial accounting and reporting, and regulation.

In order to maintain a CPA designation, states generally require completion of continuing professional education (hourly requirements vary by state). Additionally, all American Institute of Certified Public Accountants (AICPA) members must adhere to a rigorous Code of Professional Conduct, which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA’s Code of Professional Conduct within their state accountancy laws or have created their own. For more information, refer to the AICPA website at: <https://www.aicpa.org/home>.

Uniform Investment Adviser Law Examination (Series 65 Exam)

The Uniform Investment Adviser Law Examination (Series 65 exam) is a North American Securities Administrators Association (NASAA) exam administered by the Financial Industry Regulatory Authority, Inc. (FINRA). The exam consists of 130 scored questions. Candidates have 180 minutes to complete the exam. In order for a candidate to pass the Series 65 exam, the individual must correctly answer at least 94 of the 130 scored questions. For more information, refer to the NASAA website at: <https://www.nasaa.org/exams/>.
